FEATURED PARTNER

About SonicWall

The future demands smarter, more scalable, and more secure solutions. SonicWall delivers it all - and more - with a unified, intelligent platform that makes it easier than ever to secure your digital world.

Indoor Wireless Access Point

SonicWave 681

See CCB for pricing

Antennas 12 internal
Ethernet Interface 1 x 5GbE
Antenna Gain 2.4GHz: 5 dBi 5GHz: 5 dBi
PoE Power Equipment 802.3bt type 3 (PoE++60W)

Starting at

\$3,000.00

TZ670 Network Firewall

Bandwidth control Yes
DDos/Dos Attack Prevention Yes
Single Sign-On (SSO) Support Yes
VPN Support Yes

Outdoor Wireless Access Point

SonicWave 432o

See CCB for pricing

Antennas 8 N-type dipole
PoE Injector 802.3at
Maximum Power Consumption 21.2W
Mounting Pole mount kit included

Starting at

\$2,000.00

NSa 2700 Firewall

Firewall Inspection Throughput 5.5 Gbps
Threat Prevention Throughput 3.0 Gbps
IPS Throughput 3.4 Gbps
Application Inspection Throughput 3.6 Gbps

\$915.00

SonicWave 641

Wireless Access Point

Antennas 8 internal
Ethernet Interface 1 x 2.5GbE
Antenna Gain 2.4GHz: 4 dBi 5GHz: 6 dBi
PoE Power Equipment 802.3at

Starting at

\$2,850.00

TZ570/TZ570P/TZ570W

Firewall Inspection Throughput 4.00 Gbps
Threat Prevention Throughput 2.00 Gbps
IPS Throughput 2.5 Gbps
App Inspection Throughput 2.5 Gbps

Nonprofits have always been at the heart of what we do, and thankfully, that's never changed. Every year CCB offers its employees over 670 hours of paid time to volunteer in the community.

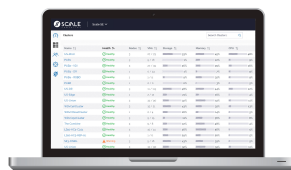

CEO & Owner Patrick Booth and the CCB team talk about their experiences giving back to the community and what it means to them.

Scale Platform

See CCB for pricing

Scale Computing Platform brings simplicity, high availability and scalability together, replacing the existing infrastructure and providing high availability for running VMs in a single, easy-to-manage platform.

Fleet Manager

See CCB for pricing

Scale Computing Fleet Manager is the first cloud-hosted monitoring & management tool built for hyperconverged edge computing infrastructure at scale. It's easy to securely monitor and manage your entire fleet of clusters running Scale Computing HyperCore.

Talk to CCB and find out why Scale Computing is the **best VMware alternative!**

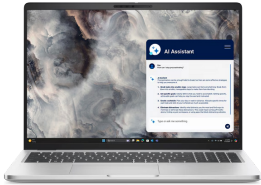

SCALE PLATFORM DEMO

Jacob Turowski, VP of Services at CCB Technology, guides you through a demo of the Scale Computing Platform and gives you a real time example of its capabilities.

I've been working with CCB on and off for the past 10 years and they are exceptional. Starting with their leadership, their values, and the way they treat their employees with respect and care, to their experience, knowledge, and exceptional customer service, CCB is the IT provider you want to partner with.
